***People often ask why there is a difference in price for Fleetwood Borough residents and non-borough residents. A portion of the taxes that Fleetwood Borough residents pay is used to operate the pool. Because of that, the Fleetwood Borough council members offer a reduced rate to the residents since they are already contributing to the pool. This year the neighboring townships were asked if they would be willing to contribute money towards the pool so all Fleetwood Area School District residents could possibly pay the same amount, and they declined. Due to that, non-borough residents will continue to pay a higher fee than Fleetwood Borough residents.***

**Family** – A “family” consists of up to 2 parents and dependent children who all reside in the same residence. A “dependent child” is age 17 or below or a full-time student who is age 22 or below.

**Pair** – A “pair” consists of (1) of the following: (2) partners (spouses or significant others) who reside at the same residence, OR (1) parent and (1) dependent child who reside at the same residence. A “dependent child” is age 17 or below or a full-time student who is age 22 or below.
